ATA IT AND CYBERSECURITY L.L.C

ATTA IT AND CYBERSECURITY L.L.C

At ATTA IT AND CYBERSECURITY LLC , we are committed to delivering reliable, innovative, and cost-effective IT solutions that help businesses operate efficiently and securely.

With extensive experience in information technology, we provide end-to-end services covering IT infrastructure, cybersecurity, data protection, backup and storage, software solutions, and licensing.

Our team works closely with clients to understand their unique business requirements and implement technology solutions that support growth, productivity, and business continuity.

We believe that technology should empower organizations rather than create complexity.

That's why we focus on providing practical, scalable, and future-ready solutions tailored to each client's needs. Whether you are a small business seeking dependable IT support or a large enterprise requiring advanced infrastructure and security solutions, we have the expertise to help you achieve your objectives.

Through our commitment to quality, customer satisfaction, and continuous innovation, we strive to be a trusted technology partner for organizations across various industries.

IT INFRASTRUCTURE SOLUTIONS

A strong IT infrastructure is the foundation of every successful business. We design, implement, and manage robust technology environments that ensure seamless communication, efficient operations, and long-term scalability. Our infrastructure solutions are tailored to support your business goals while maximizing performance, reliability, and security.

Network Infrastructure

Design and deployment of secure wired and wireless networks, structured cabling systems, switching, routing, and connectivity solutions that ensure uninterrupted business operations.

Server & Virtualization Solutions

Implementation and management of physical and virtual servers to improve performance, reduce hardware costs, and enhance resource utilization.

Cloud & Hybrid Infrastructure

Flexible cloud solutions that enable businesses to leverage the benefits of public, private, or hybrid cloud environments while maintaining security and control.

IT Support & Managed Services

Proactive monitoring, maintenance, troubleshooting, and technical support to keep systems running efficiently and minimize downtime.

Data Center Solutions

Comprehensive solutions for server rooms and data centers, including power management, rack systems, cooling, and infrastructure optimization.

CYBER SECURITY SOLUTIONS

Cyber threats continue to evolve, making security a critical business requirement. Our cybersecurity services help organizations safeguard their digital assets, protect sensitive information, and maintain compliance with industry standards. We provide a layered security approach designed to prevent, detect, and respond to emerging threats.

Network Security

Advanced firewall solutions, VPN connectivity, intrusion prevention systems, and secure network architecture to protect against unauthorized access.

Endpoint Security

Comprehensive protection for computers, servers, and mobile devices against malware, ransomware, phishing attacks, and other cyber threats.

Email & Collaboration Security

Protection against spam, phishing attempts, malicious attachments, and email-based attacks that target business users.

Vulnerability Assessment & Security Audits

Regular security assessments to identify weaknesses, evaluate risks, and recommend improvements before threats can be exploited.

Security Monitoring & Incident Response

Continuous monitoring and rapid incident response services to detect suspicious activities and minimize security risks.

BACKUP & STORAGE SOLUTIONS

Data is one of the most valuable assets of any organization. Our backup and storage solutions ensure that critical business information remains protected, accessible, and recoverable in the event of hardware failures, cyberattacks, or accidental data loss. We help businesses maintain operational continuity through secure and scalable data management strategies.

Data Backup Solutions

Automated backup systems for servers, workstations, cloud applications, and business-critical data to ensure reliable recovery when needed.

Disaster Recovery Solutions

Comprehensive recovery planning and implementation services designed to minimize downtime and restore operations quickly following unexpected disruptions.

Cloud Backup Services

Secure off-site backup solutions that provide flexibility, scalability, and protection against local disasters and hardware failures.

Enterprise Storage Solutions

Deployment of high-performance NAS, SAN, and scalable storage systems that support growing business data requirements.

Data Archiving & Retention

Long-term data retention solutions that help organizations meet compliance requirements and preserve valuable business information.

SOFTWARE & LICENSING SOLUTIONS

Selecting the right software and maintaining proper licensing are essential for business productivity and compliance. We provide genuine software products, licensing consultation, deployment services, and ongoing support to help organizations maximize their technology investments.

Microsoft Solutions

Licensing, deployment, and support for Microsoft 365, Windows Server, Exchange, Azure, and productivity applications.

Security Software Solutions

Industry-leading antivirus, endpoint protection, email security, and advanced threat protection platforms.

Business Applications

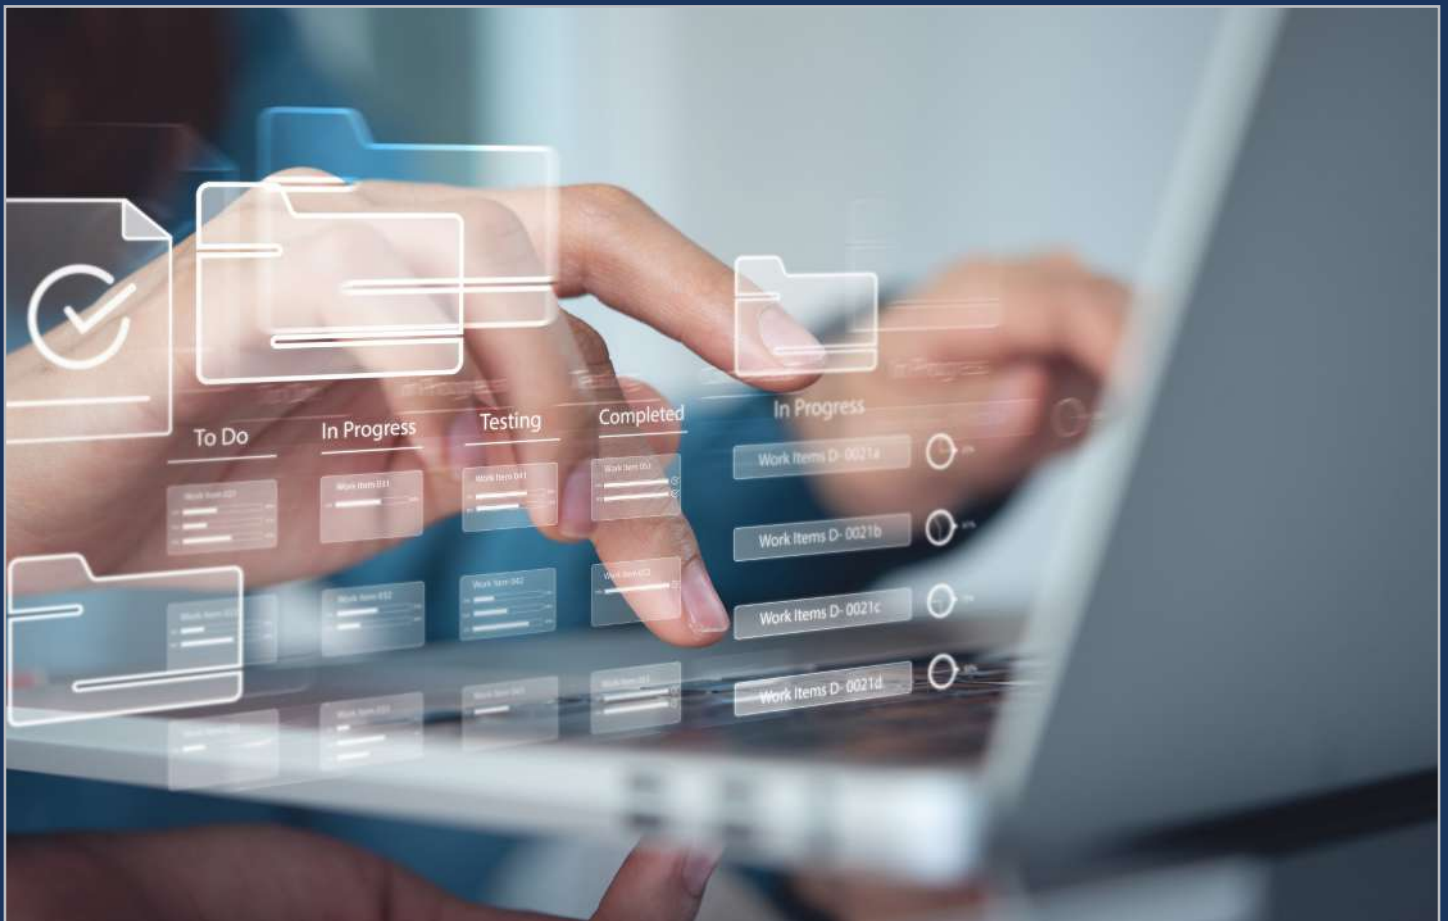

Implementation and support for ERP, CRM, HRMS, attendance management, accounting, and other business-critical software solutions.

Software License Management

Procurement, renewal, compliance management, and optimization of software licenses to reduce costs and improve efficiency.

Deployment, Migration & Support

Professional installation, configuration, migration, training, and technical support services to ensure smooth software adoption and operation.

CCTV & SURVEILLANCE SOLUTIONS

Enhance the safety and security of your business with advanced CCTV and video surveillance solutions. We provide end-to-end services including consultation, design, installation, configuration, and maintenance of surveillance systems for offices, warehouses, retail stores, industrial facilities, and commercial buildings. Our solutions help organizations monitor operations, protect assets, improve safety, and maintain compliance with security requirements.

IP & Network Cameras

Deployment of high-definition IP cameras with advanced features such as night vision, motion detection, Wide Dynamic Range (WDR), and remote monitoring capabilities.

NVR & DVR Solutions

Installation and configuration of Network Video Recorders (NVR) and Digital Video Recorders (DVR) for reliable video recording, storage, and playback management.

Video Analytics & Smart Monitoring

Intelligent surveillance features including facial recognition, people counting, intrusion detection, line crossing alerts, and vehicle monitoring to enhance security and operational insights.

Remote Viewing & Mobile Access

Secure access to live and recorded footage from anywhere using smartphones, tablets, and desktop applications.

CCTV Maintenance & Support

Preventive maintenance, health checks, troubleshooting, firmware upgrades, and ongoing technical support to ensure continuous system performance.

Access Control Integration

Integration of CCTV systems with access control, biometric attendance systems, intercoms, and security management platforms for a complete security solution.

RETAIL SALE OF COMPUTERS, PRINTERS & IT ACCESSORIES

Supply of branded IT hardware
and accessories

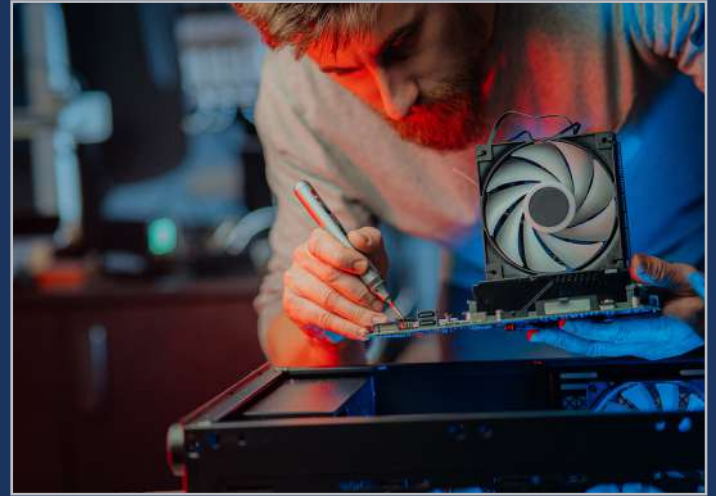

Procurement for corporate and
bulk orders

Computer and laptop upgrades

Printer and scanner installation

Hardware replacement and component upgrades

Product consultation and recommendations

Warranty support and after-sales service
